# OCEAN FREIGHT SOLUTIONS

GEESE Ocean Freight solutions cover a wide range of services to ensure your cargo is delivered on time and undamaged, in the most cost-effective and reliable way, door to door, globally.

FULL CONTAINER LOAD (FCL)

GEESE offers FCL Services all around the globe, door to door, operated by a team of experts in more than 120 countries.

Reliable & Flexible

Our status of NVOCC under Cargo Container Line (CCL) ensures reliable, flexible and cost-efficient containerized services, completed with extensive solutions for pick-up and delivery.

Competitiveness

GEESE (Trade Management) is managed centrally through a strict procurement strategy and quality management, to ensure capacity, space and competitiveness all year long.
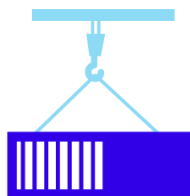

Customized Solutions

GEESE offers FCL & LCL services, from standard to highly customized solutions to fit your business needs (Reefer, secured cargo, special equipment, dangerous goods etc.)

Digitally Advanced

Our leading TMS with CargoWise technology, offers one global connected system with high data quality, automated process and shipments status, available to our customers 24/7 on our Intelligent Real Time Information System (IRIS).

LESS CONTAINER LOAD (LCL)

GEESE offers LCL solutions, door to door worldwide. LCL offers the possibility of consolidating multiple shipments so our customers benefit from favorable costs when shipping smaller volumes.

Strategic

Our Container Freight Stations (CFS) are strategically located to avoid transshipment and double handling.

Customizable

Standard to highly customized options available for Buyers' consolidations. They can also be complemented with Value Added Services, performed in our own/approved warehouses.

MARKET INTELLIGENCE

GEESE regularly provides our customers with comprehensive market intelligence from reliable sources to ensure we help our customers make well informed decisions important to the efficiency of their operation and the growth of their business.

MARKET DEVELOPMENT (DEMAND)	TRADE CAPACITY (SUPPLY)	TRADE UPDATES (RATES)	GLOBAL INDEX	SCHEDULE RELIABILITY
